Copy 5 of 7

28 April 1969

MEMORANDUM FOR THE RECORD

SUBJECT: [REDACTED]

25X1A

25X1A

1. Conferred with [REDACTED] and later with [REDACTED] on course of action with respect to go-ahead on [REDACTED]. In particular, I noted that we are proceeding with funding for [REDACTED] although [REDACTED] is out sick today. [REDACTED] stated that the authorizing memorandum for the [REDACTED] contracts is on its way over to OSA.

2. I suggested an interface meeting in Wichita next week. This is agreeable to OEL. Purpose of the meeting will be for a basic delineation of the interface between the several contractors and establishment of lines of communication. Wichita is proposed as the meeting ground, in order that the electronics contractors can get a good feeling for the nature of the beast on which the equipment is to be installed.

3. On resolution with COMPT/OSA on the [REDACTED] funding, (with possibly some minor, say \$5000, funding to OEL on the commo/data link work) I will set the meeting up through [REDACTED] (CNO advises funding not needed now)
